Dear Nikita,

I want to thank you for that powerful message you just delivered to my students. So many of my students come from the same background as yourself and your inspirational story really gave them some thoughts to "Wrestle" with in giving them direction for their lives. We can't all be world-wrestling champions but we can be the champions of our life. Your message can be a blueprint to success for students all over America. I wish you the best of luck as you take your story to those who need to hear it.

Thanks again,
